Analysis of Table of Organization Revision -  
Operations Bases, MS-1823

25X1A6a

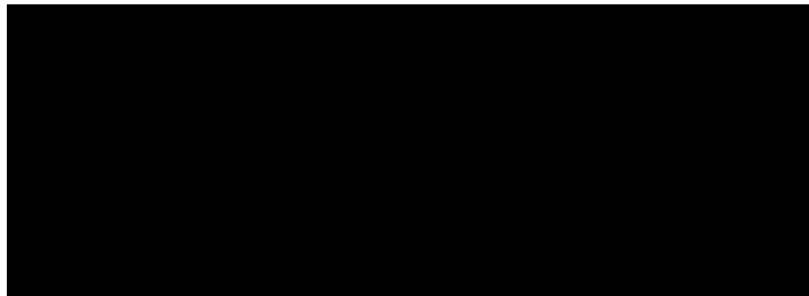

REF : Memorandum from Chief, EE Personnel, to Management Staff, dated  
13 May 1958, Subject: Table of Organization Revision

1. The EE Division has requested a merger of the [redacted] Tables  
of Organization. The merger, and concomitant adjustments, effect elements from six  
Agency components. The position and dollar effects of the proposed changes for each  
component are as follows:

25X1A6a

Component	Total of Old T/O's		Proposed T/O		Difference	
	Pos.	\$	Pos.	\$	Pos.	\$

EE  
COMMO  
TSS  
DII  
SR  
SE

25X9A2

2. The average salary and grade in the TSS element increase from \$8,524 to  
\$8,914 and from GS-11.8 to GS-12, and the average salary and grade in the SR element  
increase from \$7,790 to \$8,164 and from GS-10.9 to GS-11.2. However, the various  
adjustments reflected in the proposal result in no over-all net increase in the  
average grade of GS-9.8 but do result in an increase in average salary from \$7,171  
to \$7,249.

3. The proposed T/O indicates an increase of \$1,560 in funds required to  
finance the TSS component. This increase can be readily absorbed by TSS. However,  
due to the elimination of five (5) positions in the over-all proposal, there is a net  
decrease of \$25,365 in total funding requirements.

4. In view of the above, the Budget Division has no objection to the proposed  
T/O.
